

TRAlterator::operator=

TRAlterator::TRAlterator

TerrainRectangleArea
::GetTerrain

```
graph LR; A[TRAlterator::operator=] --> C[TerrainRectangleArea::GetTerrain]; B[TRAlterator::TRAlterator] --> C;
```

The diagram illustrates a relationship between three methods. On the left, two white rectangular boxes are stacked vertically. The top box contains the text 'TRAlterator::operator=' and the bottom box contains 'TRAlterator::TRAlterator'. On the right, a gray rectangular box contains the text 'TerrainRectangleArea' on the top line and '::GetTerrain' on the bottom line. Two blue arrows originate from the right side of the top-left box and the right side of the bottom-left box, both pointing towards the left side of the gray box on the right.
